

M-E-M-B-E-R-S-H-I-P

M Membership figures to date show a satisfactory increase. The Membership Committee has arranged a membership contest which will generate

E energy and enthusiasm. You know, Emerson said, "Nothing great was ever achieved without enthusiasm." Our cause is a great one, and the enthusiasm displayed by the members as a whole is very gratifying, and will result, we hope, in

M many hundreds of new members this year. It is amazing how many employees there are in State service who have been riding along on the efforts of O.S.E.A., making no attempt to become members, or carry their share of the responsibility. We honestly

B believe that in many cases it has been an oversight, or just due to the good old habit of "putting it off"; and those are the people we are especially eager to reach. If you know someone like that, give him a straight-from-the-shoulder talk about O.S.E.A. You know what it has done for you—and for him—so tell him about it.

E Every new member means just that much more strength for our Association, and brings us nearer our goal of 100% membership in O.S.E.A. "O.S.E.A. is the only employees' organization to

R represent state employees". Our organization is out in front, constantly looking after our interests.

S Such representation is certainly worthy of our appreciation and support. Members are invited to come into the association and

H help achieve the objectives and advance the cause of the O.S.E.A.

I Interest in membership should take a decided up-swing with the beginning of the membership contest. Your committee stands ready and eager to help you in every way they can. A little extra

P push will see the realization of our goal. "They conquer who believe they can" and we sincerely believe we can, with the help of every O.S.E.A. member.
