Security and Unemployment Compensation Commission.

Oregon agencies sending representatives were State Civil Service Commission, State Merit System Council, Portland Civil Service Board, Public Welfare Commission, State Highway Department, Bonneville Power Administration and Oregon State Employees Association.

Retirement System

(Continued from page 13)

in connection with disability retirement?

A. None other than the member must be under the voluntary service retirement age.

22. Q. Does State service rendered before the Retirement System starts in July 1, 1946 count as part of the required five or fifteen years?

A. Yes. However, an employee must be a member and no one can become a member until after July 1, 1946.

23. Q. If I should recover after retirement for disability to such an extent that I could again perform my duties, could I reenter State service?

A. If in the opinion of the Board and competent medical opinion the disability has been removed, the retirement allowance is stopped and the member shall be reinstated and his in-

dividual account credited with the amount which stands to his credit in his account at the time of his retirement for disability.

24. Q. If I had more than five years of State service and was injured while at work to such a degree that I am incapacitated, could I receive a retirement allowance and also receive benefit under the Workmen's Compensation Law because I was injured on duty?

A. No. The amount received from the Industrial Accident Commission would be deducted from your disability retirement allowance.

25. Q. When the employee has retired for disability, are further medical examinations necessary?

A. The Board has the right at any time to have the member re-examined to determine whether the disability still exists.

26. Q. Are any benefits payable in case of sickness of a member, or in case a member sustains an accident while not on duty?

A. Yes, if the sickness or accident should result in disability and if the member qualifies by having fifteen years of service. No disability retirement allowance can be paid for the first 90-day period of such incapacity.
