ROLLING ALONG

From HOWARD ROBERTS

It seems that Harry Hoxie, Highway Department rollerman, while working at Sutherlin last summer, was stopped on the job one day by a local school teacher. She had a sad story to relate about a man she knew "who was ran over by a man with a roller. Some of the other crewmen picked up the poor fellow and took him home. Arriving at the house, they found the door locked. Being in a hurry they just slipped the man under the door and departed."

Could it be that Harry had accidentally nipped the heels of said "school-marm" with *his* roller?

EXPAND PLAN

James F. Welsh of McCormick & Co., Inc., Baltimore, is quoted as saying: "A pension plan might be a boomerang with employers if not accompanied by supplementary items in a 'human relations' program as: pay structure providing living income and merit increases, paid vacations and holidays, profit-sharing bonus, rest periods away from machines, group life insurance, sick benefit plan, hospitalization. A pension plan alone won't attract workers."
