

50% More in '50

By J. D. WILSON
Director of Membership

Organizational growth is measured in terms of continued membership, plus new members to offset drop-outs, plus a continued rise in the percentage of actual members to the total potential.

An organization that mushrooms into being—making a big splurge—usually dwindles away as the glamour years off. On the other hand, a slow steady growth—month after month—is proof that, that organization is well founded, has something to offer and is worth working for.

The OSEA is an organization that YOU should be vitally interested in and working for. Its goals and achievements are things that affect YOU personally as well as the organization as a whole. There are people who like to go along for a free ride. Sometimes, however, the free ride costs more than the regular fare.

The OSEA is growing, which shows that more and more of the non-members are thinking—thinking and realizing that there is strength in numbers—that an organization such as ours is good.
