

Recruit New Members in '51

Recruiting membership in our O.S.-E.A. should be as commonplace as our everyday breathing. Without breathing we have no life and without membership we have no strength.

Now then, why don't the individual members "speak up" and bring into the organization those who are not acquainted with the purpose of the Oregon State Employees Association. We of the headquarters staff, have pondered this question and will welcome suggestions from you as to how this all-important matter can be solved.

In our democratic way of life the majority rules. We therefore cannot change our basic thought process and believe the State employees belonging to O.S.E.A. should be the policy makers when we do not represent the majority of all state employees. Yes—we are slowly attaining our goal, but as the saying goes—"eventually, why not now."

Now to organization. Do we know of the work that is being done for us? For instance—we have the headquarters of the O.S.E.A. in Salem staffed by an Executive Secretary, his assistant and two capable secretaries who always have their fingers on the pulse of State activities. The actions of these people are governed by a Board of Directors who meet regularly and/or as the need demands. The Board of Directors is comprised of State employees. We can assist in making the policies affecting our every-day life in State employment provided our membership discloses we represent the majority of our fellow workers.

Under our present State Administration the officers of your organization have found the elective officers of the State government to be very fair and cooperative. State government

is big business and the voice of one in the desert is seldom heard.

May we, your elected officers, ask for your immediate assistance. Just think of the potential—If each of us signs one new member in 1951, our worries would be over.

Leonard Popma,
Director of Membership

None are more hopelessly enslaved than those who falsely believe they are free.
—Goethe.
