

CSEICO SETTLES CLAIMS QUICKLY AFTER OCTOBER "BIG BLOW"

More than 500 claims against damage from the October 12 wind in the Salem and Portland areas have been paid by the Civil Service Employees Insurance Company, according to Insurance Services Manager Don Olds. Additional claims are reaching the company to the tune of 7 per week. Company spokesmen estimate that about 75 per cent of the total will be settled by the end of January.

The CSEICO-Gram, the publication of Civil Service Employees Insurance Company, stated in its November 19 issue that the heaviest concentration of losses was in the Salem and Portland areas. A team of adjusters was sent to each city to assist local adjusters in working out settlements for damage sustained for the most part by dwellings. These adjusters were on the job in the Salem offices of OSEA Services, Inc., prior to the arrival of other out-of-state personnel in Oregon to assist other companies.

While actual dollar settlements are not available at this time, CSEICO revealed that its maximum possible combined loss on dwelling losses under its catastrophe loss treaty with its reinsurance company would be but \$120,000. In other words, the insurance company carries insurance itself!

Civil Service Rules Clarified at Dammasch

An early February meeting was held at Dammasch State Hospital under the sponsorship of Dammasch Chapter No.

95 which provided the staff and supervisory personnel a clear-cut explanation of civil service laws and rules.

Main speaker was Civil Service Direc-

tor, Mel Cleveland (shown at left), who answered questions from the floor as Dammasch Superintendent Dr. R. L. Guiss, OSEA President Chalmers Jones and OSEA's Director of Civil Service, Ruth Branch, look on.

RATIFICATION OF AMENDMENT DUE APRIL

The deadline for the ratification of the amendment to Article VII of the OSEA Constitution (which says, in effect, that all officers, directors and employees who own or possess stocks in any of the companies doing business with the Association, shall inform the Board of Directors accordingly) is April 10. The requirement is that the decision of each chapter must be in the Headquarters Office 120 days after the letter of transmittal, which was December 10.

The Constitution requires that two-thirds of the chapters must approve the proposed amendment for it to become effective.
