Insurance Enrollment Successful

Over 1,000 state employees enrolled for medical-hospital, life and income protection insurance during the open-enrollment period held from September 1 through October 6, according to Insurance Manager Donald G. Olds.

Olds reported that 625 persons enrolled for the Blue Cross medical-hospital insurance while some 450 signed up for Standard's life and income protection insurance.

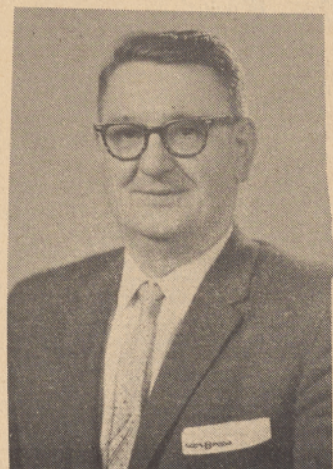

He pointed out that many of the state employees who enrolled for the insurance were not new OSEA members. "Many of them have belonged to the association for years," he said.

Enright Wins AGE Position

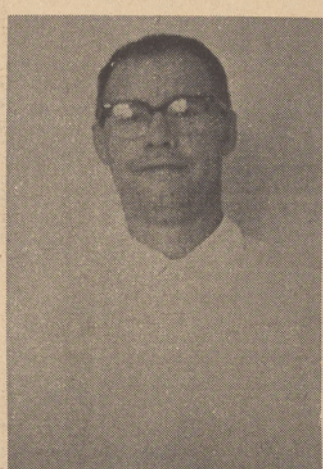

OSEA Executive Secretary Thomas C. Enright was elected secretary of the Assembly of Governmental Employees at its convention October 9-10-11 in Milwaukee, Wisconsin.

Enright and Harold W. Adams, Director of OSEA's Law and Legislation Committee, represented the association at the three-day meeting.

The AGE is a federation of independent public employee organizations, representing some 750,000 public employees in 28 states. OSEA is a charter member of the group.
