2001 Legislative Report Card

The 2001 SEIU Local 503, OPEU Legislative Report Card is part of our ongoing effort to hold elected officials accountable for the laws they make. Members, through our Union, attempt to impact the legislative process by raising our voices. SEIU Local 503, OPEU members are active on the key issues that affect our agencies, our work, our retirement, working families and our clients.

The Legislative Report Card lays out which issues were the most important to state, local government, nonprofit and homecare workers this past session. Hundreds of members were active lobbying in Salem and in our districts, testifying in hearings, making phone calls, writing letters and educating co-workers about bills that affect the work we do.
