Care Providers Caring for Oregon

In January, under a plan to connect homecare workers, nursing home workers, and childcare workers to take advantage of our similarities, we created a Care Provider Sector within our union. Homecare, child care and nursing home workers will have the ability to develop shared legislative goals and support one another in building a powerful and effective voice at both local and statewide levels.

“This is great opportunity for homecare, child care and nursing home workers to improve our ability to talk with legislators and have a voice in the decision making that affects our lives and our work.”

Caroline Mitchell, President, Homecare Local 99

Care Provider's first Bargaining/Legislative Conference, December 2006

WHAT'S INSIDE...
