

# Care Providers say "Value our work and our services"

**SIGN UP FOR  
LOBBY DAYS  
TODAY!**

Care Provider services should be valued and respected. Help us educate legislators to support:

- Quality services – better funding and safe staffing
- Collective bargaining rights
- Workplace safety and Workers' Compensation

**"When I first went to lobby days, I was very quiet. Even though my representative, Alan Brown didn't seem to listen to me, we were joined for lunch by Brad Witt, the representative from Scappoose (Dist. 31) and he got an earful of my complaints about Homecare workers having to bargain over Workers' Compensation every single contract. When I learned that Rep. Witt had drafted legislation to make Workers' Comp a permanent part of our contract, I was elated."**
