

**Re-elect NANCY PADILLA, President, OPEU SEIU  
Local 503**

I want to keep working for you as your OPEU President to build power for working people and to **WIN FOR WORKING PEOPLE!** I ask you to remember that we are stronger together—at the bargaining table and the ballot box. I believe passionately that, together, **we must and we can:**

- **Elect legislators** who respect workers and fund fair state budgets. The Legislature can vote to take away what we negotiate at the bargaining table. That is why we must elect a pro-working family legislature:
- **Defend rights** of working people, no matter who they are. Never think that a “different” group of workers being targeted is not our struggle—because it could be us next.
- **Organize unorganized workers** to build power for working families. More Union households in Oregon mean we can hand a bigger, solid defeat to Sizemore and send him packing.
- **Inspire our leaders,** mentor new leaders, increase our activist base, build opportunities for member activists to join organizing programs and make our steward structure stronger so we keep our contracts and our Union strong.
- **Build success** with other labor, community, and faith-based groups to defeat anti-worker initiatives and pass pro-working family measures. We build success with our fellow members and citizens by reaching out to talk about why it’s important to register to vote and be politically active.
