

"Tom has shown me his willingness to speak to difficult issues that could become uncomfortable. He demonstrates integrity and respect for those he challenges but stays focused on 'what is best for OPEU.' Tom speaks to the broad range of issues in OPEU and moves others in directions that are unifying. He has a commitment to workers, passion for job site justice, and courage to question peers and others on issues that might weaken our voice."

Timothy Welp - President, Perry center Local #987

"I've known and worked with Tom Seither. He understands the relationship between OPEU and politics. He not only talks the talk, he walks the walk."

Tony Corcoran - Oregon State Senator and OPEU organizer

Tom Seither is a member of the Welfare Office Workers Local 461 and on the Board of Directors from District 6. He says, "We in OPEU must continue to build power to bargain good contracts, organize unorganized workers and fight for fairness and justice where ever these battles are fought. It is vitally important for us and our communities, and it is the right thing to do."
