OPEU, SEIU Local 503 Strategic Goals

- **LABOR MOVEMENT** Revitalize the labor movement by building a militant, progressive social and economic movement through educating and mobilizing workers. Build and strengthen labor coalition through the State AFL-CIO, CLC's, Jobs with Justice, and other labor organizations of strategic importance to our goals.
- **INTERNAL ORGANIZING** Strengthen the internal structure of OPEU through a program which ID's, recruits, trains, mentors and motivates leaders, and which formally recognizes and values member contributions. Our program to build the Union should be based on direct action, power and militancy in the workplace.
- **EXTERNAL ORGANIZING** To build the external organizing capacity of OPEU, SEIU Local 503 through focusing on staff development and developing a comprehensive member organizing program that will allow us to increase membership by 12,000 in the next 2 years.
- **POLITICS** Continue to organize and activate our membership, the labor community and other allies, and increase our resources to fight the anti-workers agenda. Promote and protect social and economic justice for Oregon workers. Recruit, elect and hold accountable pro-worker candidates for public office and stabilize funding for public/human services.
