

THE FRESHMAN GLEE

The members of the Freshman class are to be congratulated on the remarkably pretty dance they gave Saturday evening at the Armory. Promptly at 8:15 the grand march began. The hall, decorated in greens presented a beautiful woodland scene. An immense net covered with fir boughs formed a ver- nal ceiling while the walls were hidden by large fir trees. The windows were curtained in green and encircled with garlands of ivy. An Indian effect was brought out in the decorations. In two corners Indian tepees were placed; Indian baskets and other Indian curios were hung about on the walls. Perhaps the most original feature of the party was the sparkling spring which flowed effusively with delicious punch. The little Misses Gladys Wilkins and Gladys Rowland assisted in dipping the punch. The programs were very appropriate and unique. The music was exceptionally good and the floor was in fine condition. About eighty couples attended among whom were a great many out-of-town guests. The patronesses were Miss Bigelow, Mrs. Zeiber, Mrs. Hendricks and Mrs. Pinkham, of Portland.

BASKETBALL

The prospects for a winning basketball team are exceedingly bright. Only one member of last year's team was lost by graduation and those remaining should certainly be able to develop great team work this year. A squad of from twenty to twenty-five men turns out at every practice and competition for positions on the 'Varsity will be keen.

Coach Bezdek has introduced a new style of play from that which the team has been used to, in that he says strength has nothing to do with the game and that the main points to strive for are cleverness, agility and head work.

Manager Clifford has been working on the schedule but has had much difficulty because of the fact that several of the colleges of the state have formed a league of which Oregon is not a member.

Games have been partially arranged with the following colleges: O. A. C., Albany, Pacific, Willamette, Monmouth and Dallas, and practice games will be played with the Eugene High School and the Friendly teams.

Y. M. C. A.

A large number of young men filled the Y. M. C. A. room last Friday evening and listened to an address by Prof. Dunn.

The subject of the discourse was, "If the Bible is not the word of God, what is it?" and was given in answer to an address by an eastern bishop who denied it being the word of God.

Prof. Dunn remarked upon the changed attitude toward the Bible due to the higher criticism, and showed that we can find traces of the human hand in its mechanism. But the errors, repetitions and contradictions concern only the mechanism of the book. Hypotheses were advanced showing how human errors may have crept in and gained a place amidst the record of divine revelation. But after all the nick in the pitcher cannot affect the virtue of the cream inside, and the word of God that must be preserved by human means is no less divine for the reason that human elements may now be found within it. And the student who studies the Bible cannot but be moved to higher and nobler life because of the real word of God that the Bible contains.

College days are hard on the eyes, and it is a bad thing to neglect them, but a good thing to have them examined by a competent Eye-Specialist.
