

ENGINEERING CLUB DISBANDS

For the Semester After, a Very Successful and Helpful Year of Work

With its last meeting the Engineering Club closed the most prosperous year of its history. The growth of interest in the club is attested by the 30 new members this year. The club numbers 55 active members with 12 honorary members in the Faculty. Only Engineering students of the three upper classes are admitted to membership. A majority of the present members will return to college next year and, with the additions from the class of 1911, should maintain the high standard of the club.

The meetings during the past year have been held on the first and third Fridays of the month at 8 o'clock, P. M. The attendance has been large, often taxing the capacity of the hall. Twelve faculty members and the President have addressed the club and nearly all of the members have made short addresses on the subjects with which they are most familiar.

All of the addresses are on practical subjects. The club has listened to discussions on chemistry, electricity, mathematics, physics, mining and civil engineering. Experiments, such as the manufacture of gun cotton, have been

carried on before the club. Each address is followed by a general discussion of the subject by the members. Many of the addresses are accompanied with illustrated views.

It is the intention of the club to ask next year for a special edition of the Oregon Weekly in which they can fully describe the Engineering departments of the University, which are second to none in the Northwest.

Thus the club is coming to fill a long felt want of the engineer. It takes the place of the debating society and yet deals with subjects which are more interesting and important to him than those discussed in debate. May the Engineering club ever prosper.

Mr. Willis Duniway, a son of Abigail Scott Duniway, was recently elected president of the University of Montana. Mr. Duniway was once a student at the University of Oregon.

Oregon Monthly

The Oregon Monthly for June is out. It is easily the best of the year. An attractive cover design by J. C. Veatch '07, on neat white paper, gives an artistic effect. All of the articles are praiseworthy. Ruth Hansen, editor for 1908-9, traces the history of Oregon college journalism. Jennie Lilly gives some interesting facts regarding Commencement Customs in various parts of the world. Satya Deva, a Hindu student, is the author of a reminiscent article describing the effect of Occidental surroundings on an Oriental. Three stories of surpassing merit, by Helene Robinson, Walter Eaton and Francis Walsh, enliven the pages. "Seniors, an Appreciation," is a satire cleverly illustrated with drawings by Marian Stowe, a member of the staff for the coming year. Other articles, and some

BETA EPSILON SORORITY HOUSE

especially good poems complete a creditable commencement issue.

Arthur Means of Pendleton, who has been visiting at the Delta Alpha house, returned home Thursday. He will enter the University next year.

Benjamin Huntington, a popular member of the senior class, has been chosen as teacher of history in Eugene High School for next year.

Prof. I. M. Glen left this noon for Portland to see about completing his orchestra for Commencement. The local contingent has been practicing for a month under his direction, and promises the best chorus we have ever had.

Miss Erma Clifford of Baker City who has been visiting the Tau Pi sorority left today for a week's visit in Portland before returning to her home.

Brooks Dixon of Pendleton visited at the Kappa Sigma house this last week.

SECOND PLACE IN P. N. A.

Is won by a Team of Only Four Athletes From the University Of Oregon

With only four men—Kuykendall, Zacharias, Huston and Moon—entered in the meet conducted by the Pacific Northwest Association at Portland last week, the University of Oregon won second place, and scored more points than teams representing the Oakland Olympic Club, the Seattle Athletic Club, the Vancouver (B. C.) Athletic Club and Vancouver (B. C.) Y. M. C. A. Besides these teams also were entered aggregations from the Tacoma and Lafayette High Schools.

First place in the meet was easily won by the Multnomah Athletic Club with Oregon second and Oakland Olympic Club third. Seattle Athletic Club was a good fourth.

For Oregon, Captain Kuykendall took first in the broad jump, second in the 120 hurdles and second in the pole vault—a total of 11 points. Huston took first in the 100 yard dash defeating Smithson in this event. Zacharias took second place in the hammer throw and Moon third in the 220 yd. dash.

In the other events, Oregon had no entries. The biggest feature of the day was the mile run which the judges decided Davolt of O. A. C. won

by an inch from Clarke of the Seattle Athletic Club. Smithson in the 120 hurdles ran the distance in 15 2-5, breaking the world's record, but as one hurdle was knocked down the record can not be allowed.

First places in the remaining events were won as follows:

220 yard dash—Gerhardt, Olympic Athletic Club; 440 yard dash, Greenhaw, Multnomah; 880 yard run, Glarner, Olympic; mile run, Davolt, Multnomah; 120 yard hurdles, Smithson, Multnomah; 220 yard hurdles, Malcomson, Seattle A. C.; high jump, Chapman, Multnomah; broad jump, Kuykendall, Oregon; pole vault, Olympic A. C.; hammer throw, Hall, Multnomah; shot put, Wolff, Multnomah; discus throw, Bantz, Seattle A. C.; senior relay, Multnomah team; High School relay, Tacoma H. S.; Grammar School relay, Hawthorne Public School.
