

An Important Announcement

THE FACULTY

of reason is one of the most valuable attributes of the human mind. When once a man

HAS DECIDED

by this faculty, to pursue a certain course, he is willing

TO DISREGARD CUSTOM

His enthusiasm becomes so great that he is ready to follow this course only

AND TO DO AWAY WITH

whatever stands in the way. This is because his policy, reasoned out, is sound and will stand the most searching

TESTS AND EXAMINATIONS.

Objection to his policy will have no effect but

ALL WILL PASS

through his mind as water through a sieve, and

NO ONE

can persuade him that his plan

WILL FAIL.

FIVE MONTHS' VACATION

with enforced idleness would kill him. His mind is so full of his idea, that although he be a man

WITH NO COLLEGE WORK

to guard his processes, his very enthusiasm suffices. It is certain that, in such a case, success

WILL FOLLOW.
