

Industrial Notes.

The frame work for bath house is up, and the Carpenters are waiting for the slings and nuts to complete their part.

Charles Cutler has made a very neat and handsome music case and the boys are all wondering and guessing who ever it can be for.

Charley Newton has made a nice table with a drawer for William Lavallee in the new room of power house.

The mending class keep the carpenters busy making tables, cupboards, drop boards, bread and meat boards and rolling-pins and they being very necessary requirements in that department the boys are happy to give a helping hand to help them along.

Mr. Childers has a fine tool box on runners made by Chas. Cutler and Bob McCum. He will now be able to haul his implements from one place to another more conveniently.

The ties for our railroad are on the way to completion, now let us have the grading done.

Henry Pined and Sykes Mitchell filled up shelves and tables for the patch room, in the Large Boys House.

The Scientific Cooking class made quite a success of their waffles as ye mutton can testify.

Dolly Wiggins bakes delicious bread. Th girl who has Miss Hill teach her to bake bread is to be congratulated.

Alex Young has been made assistant cook.

William Williams is making a fine set of single driving harness.

Mr. Childers says Joe Bob is one of the best boys in his department that he takes a great interest in his work and strives to learn all that he can each day. That is the way all boys should do.

President Roosevelt to Young Men.

It may be interesting to our members to learn that President Roosevelt was once

president of a prominent literary society. This society was a branch of the Lyceum League of North America. It may also interest our members to read an extract from an address that President Roosevelt made a few weeks ago to the graduates from the New York Trade School. He said:—

I like to meet the young men who are going to do the city's and the nation's work. I suppose that you boys all know something of athletic sports. In our hundred yard race you can find perhaps one hundred men who will go the one hundred yard dash in ten and a quarter seconds, but only one who can do it in the even ten seconds. That one is the man who will win, every time. It's a very small difference, but it counts. You will find business life the same. Success will come to the man who is just a little bit better than the others. There are plenty of workmen who can do "pretty well," but the man who can do his work "right up to the hundle" is the man who is in demand.—[E.]

DOES NOT THINK INDIANS DID IT

Superintendent Buchanan, of the Tulalip Agency, Thinks Jenson-White Folks Set the Fire.

Dr. Charles Milton Buchanan, superintendent of the Tulalip reservation, was in the city today, with a pair of badly burned hands, injured while endeavoring to save government property during the recent incendiary fire on the reservation in which every occupied building was set on fire. Dr. Buchanan said:

"The cracking of flames aroused me at 4:20 o'clock, but I thought the noise came from falling hail. When we saw the light of flames issuing from the roof and began sweeping fire from the walls of my home with a broom. I turned my hands very badly dragging an awful quantity saturated in oil from under my褥垫.

"We tried to use water on the buildings, but a messenger returned to me saying
