## Two Bad Men.

Bulletin as posted at Chemawa regarding the two escaped convicts:

Tracy and Merrill after escaping from the theater last night headed for Mountie, a small town about four miles northwest of Gervais, and there took breakfast this a. m. Leaving Mountie they struck Sandy east of Antlers making up a farm home for dinner and grabbing a piece of bacon just to keep their hand in. They are now in Rock Creek station near where they took dinner, and the sheriff of Chickamauga county with posse are out after them and will have them surrounded.

LATER: They have the desperadoes surrounded at Balto Creek bridge a few miles south of Sandy where they took dinner and a big fight is expected soon.

LATEST: Gov. Geer calls home the state militia and orders out the Oklahoma Duck Bill Hunting Club with dogs. Look out for something to drop.

Tracy and Merrill took breakfast at Barlow and bought salamo at New Era.

Reported five men killed in attempting to take Tracy and Merrill. Not confirmed.

LATER: The posse has lost track of Tracy and Merrill entirely.

Colonel Woodin along Oklahoma Bill and Captain Brewer are getting guns and ammunition ready for posse tonight and will make a desperate charge.

LATEST STILL: Carrie Nation the noted "tommy hawk" (thrower of Kansas) has wired the Governor that she will run down the desperado Tracy and Merrill and catch them providing she is allowed to use her hatchet in the same old way. Carrie claim she can cut a cat at 20 paces with her hatchet 80 times out of a hundred. The Governor has taken this mode deep advertisement, but does not know what would be the worse for the State of Oregon, Carrie through town with her hatchet or Tracy and Merrill.

LATER: The noted "Ranney Bill" notified and is expected on the scene.
