Last Monday a special train loaded with 1000 excursionists, principally delegates of the A. O. W. W. stopped at Chewawa and took the train by steam. They visited the various industrial and literary departments, while the band was discoursing sweet music from the Band Stand. Even the boys and deer came out on the main and seemed pleased to see so many fine looking ladies and gentlemen. From Chewawa the party went to Salem where they were given a fine straw berry dinner.
