

CHENAWA'S PROPOSED NEW LARGE BOYS' HOME.

The last Congress appropriated \$25,000.00 "for the construction of a new brick dormitory suitable for the accommodation of two hundred and fifty boys."

Plans have been drawn and submitted for approval; the ground has been cleared by moving the Administration building and the Commissary to new locations and we are now ready to go ahead and build.

When this building is completed Chenawa will have a well rounded school. The large boys will occupy the new building and the present Large Boys' Home will be fitted up for our small boys.

We hope to have this building completed and our boys living in it in the near future.
