

A CORNER IN CHEMAWA'S FRUIT PANTRY.

There is one thing that the pupils of Chemawa enjoy, and that is fruit.

We have about 30 acres of prunes, apples, pears, cherries, strawberries, blackberries, raspberries and gooseberries.

We dry, can, and make butter of our fruit in addition to eating it green.

This year we have dried over 3,000 lbs. of prunes, have housed over 300 bushels of apples; have about 3,000 half gallon cans filled and about 300 gallons of prune butter made, for use this winter.
