Chemawa Indian School.

Subscription Price, 25 Cents Per Year.

Clubs of five and over 25 Cents per year.

Address all Business Communications to  
THE CHEMAWA AMERICAN,  
CHEMAWA, OREGON.

Entered at the Postoffice at Chemawa, Or.,  
as second-class mail-matter.

NOTE—If this space... is marked with a  
red cross it means; that your sub-  
scription has expired. Please renew.

Be honest. Don't try to deceive! Don't be  
a pessimist and imagine you have all the  
pains and aches to which flesh is heir. Be  
cheerful and look on the bright side of life  
and you will live to a good old age barring  
an accident.

The Chemawa American, Oregon, is run-  
ning a series of illustrations through its  
weekly columns. In the issue of October  
21, there is a view of a corner of their fruit  
pantry, which makes one's mouth water.  
They have baskets of prunes, apples, pears,  
cherries, strawberries, etc. They dry, can,  
and make butter of their fruit in addition  
to eating it green. This year they have  
dried over 5,000 lbs. of prunes, have canned  
over 300 bushels of apples, have about 5,000  
half-gallon cans filled and about 500 gallons  
of prune butter made for use this winter.—  
Red Man and Helper.

The regular weekly lecture was given in  
chapel on Wednesday evening by Mr. Harry  
E. Mann, on blacksmithing. Every one  
present certainly learned some valuable  
knowledge about blacksmithing from Mr.  
Mann's lecture, and especially the students  
on the appliances. Mr. Mann stated brief-

ly the advantages the pupils at Chemawa  
have over the white young men who usu-  
ally have to pay to learn their trades,  
do not always receive the best of treatment  
and have to sign a contract for so many  
years, just to get a chance to learn a trade.  
He said that a boy must have patience and  
be interested in his work in order to make  
a success of his trade. He congratulated  
one of the smallest boys in his department  
for the interest he takes in his work, and  
said that that boy would make a good  
blacksmith if he only stays with it long  
enough. He told how to build a black-  
smith shop; how to blow the bellows cor-  
rectly, to prevent it from drawing fire and  
gas; how to build a fire and the necessity  
of having a good fire in making heavy  
welds, etc.; the correct position of the anvil  
and a regular place for the necessary tools  
used in the shop, and explained the differ-  
ence of the coals, in making fires, etc.,  
much more could be mentioned but lack  
of space forbids.

### FOOT BALL.

#### Chemawa vs. Willamette.

Chemawa wins by a score of 22 to 0.  
A Clean Game.

The lovers of foot ball had the satisfac-  
tion of witnessing one of the cleanest, most  
hotly contested games played on the pil-  
lions Saturday afternoon. Although the En-  
virelity boys were much inferior than their  
opponents, they were unable to score at  
any time, and were finally completely  
give away to the force, sharp, resistance  
of half red brothers and were defeated by a  
score of 22 to 0. While the Chemawians  
feel proud of their victory, yet the theo-  
rists made them earn every point. Several  
excellent plays were made by Pollard and  
Miller of the Willamette team, and by Joe  
Boch, Mann and Teal of the Chemawa,  
and both teams showed great improvement  
over two weeks ago, the result of good  
practice. No members of any consequence  
resulted during the progress of the game  
which was a really clean one throughout.
