

## Industrial News.

### Harness Department.

The harness makers are nicely situated in their new quarters, and it is with some pride that Mr. Farrow shows a visitor through his department. This place is a model of convenience in all respects. On the wall hangs a case holding four prizes that exhibits from this shop have taken at the State fair in the past four years, which testify to the excellent grade of work these workmen are capable of doing.

The harness men are making seven leather cornet cases for the band.

### The Laundry.

Rosetta Odessa, a new member of the laundry force is highly spoken of by the head of that department.

Mary McCloud, of Montana, Ivy and Odessa Dodson, of Blanchard, Wash., and Elmer LaFonso, of Chico, Calif., have recently joined Mrs. Brewer's force in the laundry.

Among the new machinery recently installed in the laundry is a body ironer, shirt polisher, fluter, and three patent skit ironers, a lot of which are heated by gas, and also six electrical irons. This machinery is all of the latest, up-to-date models and is run by the new electric motor.

### Wagon Makers at work.

Manager Hilb, of this department is placing some handy machinery in the shed back of the engine house, in the shape of a bone cutter, sausage machine and a big grind stone weighing one-fourth of a ton. They are all connected by a belt to a shaft over head run by electrical power. One or all these machines, as desired, may be operated at once.

The wagon shop department is a scene of activity this week.

Joe Davis has two trucks under construction for the warehouse. A new

wheelbarrow recently turned out by Joe speaks well for his ability in this line and insures the warehouse people some good trucks.

This department has just finished fitting-up the new harness shop with new furniture of all kinds as used in such places. A visit to the place convinces one that the work could not have been put in better hands.

Mr. Hilb expects to begin work on fitting-up the tailor shop shortly, installing new furniture, etc.

Three new wagon gears are turned out ready for the blacksmiths. Chemawa wagons have an excellent reputation and find a ready market.

A new storeroom will soon be fitted-up for the storage of wagon material.

### The Engineer and Plumber Department.

Martin Wallon, Marcel Arcasa and John Finkbenner, of the engineer's department, have been on the sick list this week. We hope to see them around again within a few days.

Joe Brignone has returned to resume his studies after several months absence. Joe is a former member of Engineer Becker's department.

The plumbers will soon begin work plumbing the building formerly occupied by the tailor shop, but recently converted into a cozy cottage. The building will be fitted-up with all modern conveniences in the way of plumbing. Mr. Mann and Mr. Wood and their families will occupy the place when completed.

### In The Tailor Shop.

Among some of the jobs now in the hands of the members of this department is, a suit and overcoat for Superintendent Potter, a suit for Colonel Pringle, Supervisor of engineering, and a suit for Dr. Gillis of Salem. Work being done by Wm. Blodget and Jesse Crook.

Jane Evans and Fay Charles are also making a jacket and skirt for Mrs. Hilb.
