

Local and General.

Mr. and Mrs. Woods visited Salem last Monday.

Mrs. Woods is again acting assistant nurse in the hospital, much to the delight of the inmates.

Mr. Mann was elected vice-president of the Independent Order of Lions in Salem Saturday evening.

Mrs. Cloutier, Mrs. Hilb, Miss Dohse and Miss Bowman spent Saturday in Portland, returning home Sunday evening.

Supervisor Charles writes from Tacoma in a letter saying that he met a young man yesterday who was one of the first pupils in this school, and now holds a prominent position in a bank at North Yakima.

There should be another large building dedicated at Salem Indian School next year, one to contain an assembly hall, in order to relieve the crowded condition in the present school building, which at present contains the assembly hall.—Statesman.

While Mr. Herman was telling of the capacity of the Indian and asserting that education was a success, Antoine Caisse, a Chippewa Indian, was taking down the address in shorthand, and got every word, too, for he is a splendid stenographer. Mr. Caisse is assistant clerk at Chemawa School.—Statesman.

Mr. Davis met with a painful accident last Sunday evening while riding a bicycle. In making the short turn by the large boy's home he lost control of the wheel and in jumping to save himself from a fall he strained the muscles of his right leg so badly that he has been confined to his room for several days past.

The sad news reached Chemawa the other day of Donald Campbell being one of the great number of Stanford students who were stricken with typhoid fever. Mrs. Campbell left for San Francisco and is at his bedside. While the crisis has not been passed, the latest report received state that he is doing as well as could be expected.

Among the Pupils.

All kinds of fancy lunch goods at Henderson's.

The roses around the hospital are beginning to bloom.

Simon Charles has quit gardening and is now splitting wood.

We will be glad to see Lottie Lane graduate in her music.

The carpenters are making hangings for the blacksmiths' bellows.

The tailor boys are busy making a suit for Ban Master Stoudenmeyer.

New stone steps leading into the hospital cellar have recently been put in.

The girls and boys are glad to see Emily Downie back to the school again.

Preparing work to send to Boston is the order of school room work this week.

Joseph Alexander completed his first set of base ball plates and says that they cannot be beaten.

The carpenters have been busy this week putting in window glass in the small boy's and girl's home.

Geo. Shakes, of the carpenter shop, has in hand a box for soiled linens for the little boys' quarters.

Bon Ton Baking Powder, prize with every can, at Henderson's.

The other day Mr. Campbell shook hands with Supervisor of Construction, John Charles, who passed through Chemawa on the train enroute to Tacoma. He will, no doubt, be back this way soon to inspect our new building now in course of construction. Mr. Charles will always receive a hearty welcome from Chemawa.

I visited the Domestic Science room the other evening just as the pupils were ready to serve dinner. Their menu consisted of nicely broiled steak, potato chips, light biscuits, doughnuts, layer cake and cocoa. Mrs. Cooper has fixed up the Domestic Science room very tastefully, showing the girls how they can make a room look home-like at a very small expense. M.
