

Among the Pupils.

Lella Smith is still on the sick list.

Henry Vincent is working on the new building.

The blacksmiths are very busy repairing plows and wagons.

The Chemawa band is going to travel sometime this month.

Addie Sailor is in the hospital but we all hope she will soon be out.

The boys and girls go out every evening and water their gardens.

Olive LaFlumboise is very busy working on a dress for the N. E. A.

Katherine McDonald is making a handsome waist for her sister Alice.

Minnie Hickman will start to take her music lessons in Salem Saturday.

Alice Williams received a very pretty red dress from her mother in Tacoma.

The pupils' vegetable gardens are all planted and are growing very nicely.

Mitchell Hall, the large boys building, is rapidly going up and will soon be finished.

The farmers and other boys have been digging a ditch in the lake the last two weeks.

Eimer LaDue and David Pond are working with Mr. Westley's force planting potatoes.

Mary Smith is working in the domestic science this week, and is becoming a first class cook.

Nellie Shepard is doing some hemstitching in the boys' patch room and she is doing very nicely.

Mrs. Theisz has distributed pictures among the girls' rooms and they all look very nice.

They did not hold the Y. M. C. A. meeting last Sunday evening on account of the hot weather.

Joe La Flumboise was promoted to the second grade A class lately and is learning fast.

The men have started to work on the roof of the building and have some boys working on it.

Yesterday it was very hot and most all the boys went in swimming down in the Willamette River.

Mary Jurbs and Marguerite McDonald are very much attached to the domestic science girls' cookies.

The lawns which were once plowed up look very smooth and green. The boys did not work for nothing after all.

Delia Clark made some good bread in the Domestic Science class last Tuesday. She is going to be an expert cook if she keeps on.

Who was it that said peanuts wouldn't grow in Oregon? If they want to see some fine peanuts growing just call on Lena Alligier.

The little girls drill very nicely, they can keep step better than any of the larger pupils. The McBride Hall girls drill in the evening.

We miss Irene Campbell very much after being accustomed to seeing her in the teacher's chair. She was much liked by all as a teacher.

Haynes DeWitt is a very skillful hand at his trade and also a very fast worker. He is now making screen doors and windows for the hospital.

Thos. Otto and Ed. Warbus, who have been out working for several weeks, returned to school first of the week and are again attending to their duties.

Maggie Dupuis is working for Mrs. Becker. It is a pleasure for her to pass through her rooms because Maggie always keeps them looking so neat.

The pupils in the fourth grade A division are all glad to have Marie Boone back to school again because she is so neat and clean with her school work.

Commencement is coming soon and the pupils are all talking about going home and a good many of them are talking about going to Salem and work.
