

Among the Pupils.

The examinations have kept us very busy this week.

We are all glad to see Alice Sisk out of the hospital.

We are all glad to see Miss Gertrude Brewer back again.

Laura Reed works in the sewing room and is doing her work fine.

The meeting of the Y. M. C. A. and the Y. W. C. A. was very good.

We are all very glad to see Mr. Mann out after a two weeks' illness.

Minnie Pamburn is making her sister Maggie a very pretty dress.

Peter Casey seems to like to watch the strawberries. "Wonder why?"

Manuel Legget and Frank Murray have just been added to the kitchen detail.

Louisa Murray seems to be very fond of the fine strawberries we have lately.

The rain on Sunday watered our gardens fine, now we will have to weed them.

Several of the girls went for a walk Sunday, and were caught in the rain.

Julia Grindler visited from Friday until Sunday evening with friends in Chemawa.

The convent at which Eva Woods is attending in Salem, will have their commencement to-day.

Lulin Brewer went to Tacoma, Wash., Monday morning. He will not return until next September.

Julius Daniels returned last Friday morning from Auburn, Wash., where he has spent the past two months.

Louise Stewart works on the second floor at the small girls home, and she keeps it very nice and clean.

Simon Charles captured two young ground squirrels yesterday afternoon. They proved to be very fine play fellows.

We are all anxious to know what grade will get that picnic promised by Superintendent Potter for having the best vegetable garden.

I have seen many bears and heard a good many bear stories, but what beats me is that they are trying to make ducks out of Chemawa bears.

The band will soon be away on its trip. Mr. Potter said that commencement day will be on the 30th of June, instead of the 25th, on account of the band, which will not be here on the 25th. They return to Chemawa on the evening of the 28th.

We are all glad that school is nearly out for vacation. I have been here nearly six months, and very well pleased with Chemawa, and glad that I came up here now for I wanted to have some more schooling before I go out in the world for myself. I had a chance to go to any Indian school in the United States but my choice was to come to Chemawa.

This spring when I was working out an Irishman lost a pig and he was looking for it. He came up to where I was plowing with a gang plough and asked me if I saw a pig around there at any time; I said no and asked him what kind of a pig it was, what color? and he said, "Sometimes white, and sometimes black." He meant a spotted pig. I think he was an Irishman alright enough.

The chapel talk Monday night, by Miss Warren, a missionary, was very interesting and every employe, boy and girl listened very closely so as to catch every word that was being said by her. After talking a while she took some ribbons and showed us how much money was spent for liquor, tobacco and for schools and proved that the men, women, boys and girls spent more money for liquor and tobacco than for everything else.

Last Friday the Modern Woodmen of the World gave a picnic in the grove near Chemawa. From 11 a. m. until 2 p. m. the Chemawa band entertained the people with a fine concert. In the afternoon a baseball game was played on the school grounds between Lake La Bish and Chemawa's second team. The score stood 23 to 5 in favor of Chemawa. Everybody seemed to enjoy the day immensely and the picnic was pronounced a grand success.
