

What the Pupils Say.

Jas. Smith is back in the engine room again.

Walter Dyke made a shirt press for the laundry this week.

Julian Jim did a neat job in making a pair of plow handles for the farm.

They have already made in the sewing-room 250 sheets for Mitchell Hall.

John Peazzoni arrived here last week and says he is well pleased with Chemawa.

The bakers send a loaf of bread each day to the Superintendent's office for inspection.

The blacksmiths hung two new iron gates this week across the walk leading to the schoolhouse.

Dora Gray has been here to see her sister Margie and friends. She returned to Salem again Monday evening.

The girls all enjoyed the Bible class which was held last Saturday evening in McBride Hall.

The carpenters finished first of the week putting in new doors and improving the paint shop in general.

Mr. Woods and his carpenter boys are working on Mr. Stoudenmeyer's office and will soon finish the job.

A water pipe was laid Tuesday to connect with the potato washer in the root house, which will soon be in operation.

The carpenters made an oat cleaner this week for the barn that is a novel arrangement for cleaning the oats for the horses.

Pete Lucier was busy repairing the hospital this week, while Tipton Holland has made extensive repairs in the little girls' building.

Floyd Lovelace and Fred Foster have charge of the lights during the morning and their work is highly spoken of by their superiors.

In discussing Dr. Elliot's lecture, one little girl remarked that she would get her mother to make her some moccasins if she were to go to Japan.

Haynes Dewitt has just completed a trunk for himself that speaks well for his work and shows that his time in the carpenter shop has been well spent.

William Bangham, one of our pupils who went to Alaska, writes from Douglas that he has been working and did well all last summer running a gasoline launch.

The Hole in the Wall has wakened up at last and will have a good team. They expect to play a Salem team to-morrow. The giants will have to look after their honors.

"All sorts of things and weather must be taken in together to make up a year and a sphere." That is what the squirrel said to the mountain when the mountain was boasting of its size.

Dr. Elliot's talk Sunday afternoon about Japan was very interesting, as well as instructive. When we study about Japan in our geography it will seem real since we heard about it from some one who has been there.

The pupils enjoy our new readers, called "Stepping Stones to Literature." They have very interesting stories in them and some beautiful pictures. I am sure we ought to thank "Uncle Sam" for sending us such nice books.

Minnie Howard, Olive Maupin, Cecil and Myrtle Johnson returned to School Tuesday from South Bend. They received a hearty welcome from their friends who were glad to see them back. Cecil is in this year's graduating class.

The kitchen boys and the dairy boys are going to play foot ball next Saturday afternoon. John Olofson is the famous center for the cooks and Walter Nasson, half back, and Jesse Payne, quarter back, are expected to do some star playing for the dairy boys.

The Chemawa Y. W. C. A. are observing the association's week of prayer by special silent prayer at a certain time each day. The Sunday evening meeting was marked by its earnest spirit and large attendance. The presence of Miss Logun and the ladies of the school was very encouraging.
