

At Other Schools.

J. H. Robenolt, formerly disciplinarian at Grand Junction, Colo., is now in the newspaper business in Utah.

Mr. T. E. McIntire, chief clerk, and Miss Bertha Spooner, a former teacher, were recently married at the Pine Ridge Agency, S. D.

M. Freidman, for several years past a teacher at Phoenix, and Wm. F. Umphrey, teacher at White Earth school, have been transferred to the Philippine school service at salaries of \$1200 per annum.

We learn from the Chilocco Farmer that the following estimates for the support of the Chilocco school during the next fiscal year was submitted in the Indian Bill to Congress: Support of 700 Indian pupils at Chilocco, Okla. Ter., at \$167 per annum each, \$116,900; pay of superintendent, \$2,500; general repairs and improvements, \$7,500; for cisterns, \$2,500; colonization of pupils on school farm, \$10,000."

Clarence Three Stars, a day school teacher on the Pine Ridge reservation, and the first full blood Sioux Indian who ever taught, has discovered a rich deposit of bituminous coal in Nebraska. The State offers a bounty of \$4000 for the discovery of a 26 inch vein. Three Stars finds that he has six inches to spare in his case and inspectors have been sent by the governor to examine the mine.

Miss Folsom of Hampton, in a recent report of returned students says:

"It is twenty-five years ago that Captain Pratt brought the first Indian to Hampton—the prisoners of war from St. Augustine. Since that time the school has taught 938 Indian boys and girls, 673 of whom are now living. The returned students are doing work and exerting influences which, according to our best knowledge, we classify as follows: Excellent, 141; good, 333; fair, 149; poor, 42; bad, 8. According to this classification, 474 returned students are entirely satisfactory, 50 have poor records, and 149 amount to but little either way. They are largely the sick and deficient."—Indian's Friend.

AT THE GENOA SCHOOL.

From the Indian News.

The program for the holidays was: Get up—Breakfast—Work—Dinner—Grab skates and skate all afternoon—Supper—Gymnasium—Bed.

Mr. McCallum recently showed us a lemon which measured 17½ inches in circumference and weighed four pounds. It is surely a "whopper" and we think it could make a barrel of ciscus lemonade by itself.

Our monthly social for the employes club was held Dec. 2 in the auditorium and a pleasing program rendered. The club then adjourned to Sunshine Flat where delicious refreshments were served. These socials are a very enjoyable feature of the year and we feel that nothing is more conducive to the desired friendship and good will that prevails.

We are only good when we are good for something.—Ex.
