

COZIES

The boys behaved themselves very nicely New Year's night.

A number of promotions have been made from the 5th to the 6th grade.

A great many people from Salem and vicinity are visiting our school rooms. They come out on the trolley.

Hon. Ed. Hirsch and wife and Mr. and Mrs. Wentworth of Salem spent Sunday afternoon with Mr. and Mrs. Campbell.

Skating is such an unusual pastime for Oregon that great excitement prevails when there is any ice, as there now is.

Mrs. Olney arrived Christmas with Ellen Olney and Benjamin and Bessie Jarvis, from Yakima Agency, Washington.

New Year's opened with a snow storm which was followed by rain and cold weather which was unprecedented in the Willamette Valley.

Before the next American is in the hands of the readers, Lizzie Martin will be back at Chemawa and perusing her studies. Lizzie's friends will be glad to hear this.—Later here now.

We have to thank the Silverton Flouring Mills, who make "The Pride of Waldo Hills" brand of flour, for some very nice calendars, which they were so kind to send us.

The first team basketball girls are going to Monmouth Saturday to play. Monmouth is a favorite town of the Chemawa pupils. They always receive the most polite treatment there.—V. B.

Those who were lucky enough to have skates had the pleasure of enjoying some skating this week.

The question has been asked, what kind of a baseball team will Chemawa develop for this season.

By the way the band is practicing we may expect some fine open air concerts in a short time, as Spring will soon be here.

The Chemawa second basket ball team will play the South Salem aggregation at the Y. M. C. A. hall tomorrow evening.

Georgie deer while looking around for something to eat does not overlook the sprouts on Chemawa's roses, and while he saves some pruning on the roses, he will have to be withdrawn or else Chemawa's crop of roses for next year will be short.

The boys Band of Mercy met last Wednesday evening at the small boys' home. As the president was sick no special program was prepared. The subject for discussion was the dog. Anecdotes of collies and St. Bernards were told. Also the cruelty of docking the ears and tails of dogs was touched upon.

We have to extend our thanks to the Corvallis Flouring Mills for the unique calendars which they sent to Chemawa, one of which was placed in each school room and in the printing office. The calendar is surmounted by a map of Oregon and on the back of the same is considerable information of importance. Every school in the state of Oregon ought to be supplied with one of these calendars. The Corvallis Mills furnished the school with flour for a number of years so that we know that their flour is in the front rank, as well as their calendars.
