It is a saying that America makes no distinction for her autoerats that everyone is equal, the only particular class that have a special distinction is the tramp. But there are some people who go around with the little idea in their head that they are a little better than someone else and to pay attention to a courtesy from somebody is above them. If etiquette amounts to anything, why do such people show the ignorance of it? It is just as easy to recognize a courtesy by a bow, as it is to go strutting along with head so high that shows something is lacking in it.

This expectoration will kill you as quick as a snake can bite you. This is one of the dangerous "lions" in our lives. So boys kill your "lion" and be good.
