

We had some strawberry shortcake last Wednesday.

Don Gray is making a nice sofa pillow for her room.

The woodwork in the middle-sized boys' building is almost finished.

John Service is working on the garden detail and likes his work.

Some of the McBride Hall girls are spending their spare time making lace.

John Benson is very proud of his cash bed. He invites visitors to it very often.

The gardeners are planting potatoes in the new ground back of the school building.

William Canther and Silas Albert are making shelves in the medium size boys' building.

Albert Garry is working hard in the black smith shop now, and he is doing fine work.

The lawn social last Friday evening was enjoyed by the pupils, especially the round games.

Harry Long is now working in the plumber's department and he will become a good plumber.

The Chemawa base-ball team will go to Salem tomorrow morning to play the Willamette team.

Grover Colby is preparing the material required to furnish the work of the middle sized boys' home.

The seventh grade pupils are now studying compound interest. It is difficult but they are going to try hard.

A good many of the boys from Company B. were promoted to company A. Company A makes a fine appearance now.

Peter Seltice and Eugene Williams are practicing a new performance which they expect to give before the school.

Every morning when Mary McLeod comes to school she has some roses. We wonder who she gets them from?

Belle Dillstrom a new pupil, is added to the seventh grade. We all wish her success and also welcome her to our class.

Sarah Pierce and Norah VanPelt were out hoeing and weeding their gardens this morning. They want to win the prize.

The second base-ball team are improving in their team work, since the last game they played with the deaf mutes.

George Williams is getting to be an expert strawberry picker since he has been picking for a farmer out in the country.

Laura Reed is making herself a very beautiful cream-colored dress, and it is almost finished. She will wear it Commencement.

Dr. Fryer and Teddy Cluchie are becoming great friends. Teddy is a very bright little boy and stays in Miss Troutman's building.

The 8th grade B class, has five girls and nine boys making fourteen altogether one just above the unlucky number, thirteen.

Henry Dillstrom, a new pupil of Chemawa, has entered the harness making department and we all wish him success. He is very much interested in his work.

On leaving, Harry Stuart did not forget to tell the pupils of his grade to take good care of his onion garden which they will do. His garden makes a fine appearance among the school gardens. We would like to have Harry send an item for the AMERICAN.
