"JEALOUSY," is one of the chief sources of crime. It is a trait character that leads one to the dark places of life.

TALK ABOUT COWARDICE! There is nothing so cowardly as a boy who talks against others behind their backs. This is another habit that leads to misery in life. The boys who form such habits are almost sure to be worthless citizens if not eventually criminals.

GIRLS DO NOT forget to brush your teeth at least three times a day, and do not come into the dining hall without combing your hair. Do not follow the slouchy appearance of some of the boys, on the contrary, girls should set an example for boys. Girls who have unclean teeth make some people think they chew tobacco. Be clean.

OF ALL THE MACHINES, the printing press is one of the most useful to man. It is a mighty factor in our busy world and one of the greatest inventions of the

age. Without it, reading matter would be out of reach of the masses. A book or magazine would be a luxury which only a few could afford to buy, and unless there would be some other way of preserving our thoughts on paper the world would almost come to a halt; for there could be but little progress without the printing press. It has spread knowledge like a mighty prairie fire sweeping along its course. Ignorance and superstition, and in the darkest places of the earth has brought light and reason. It has crowned knowledge and placed it in the reach of all mankind.

Don't Wait For Your Opportunity

Make it, as Lincoln made his in the log cabin in the wilderness. Make it, as Henry Wilson made his during his evenings on a farm, when he read a thousand volumes while other boys of the neighborhood wasted their evenings. Make it, as the shepherd boy Fergusson made his when he calculated the distance of the stars with a handful of beads on a string. Make it, as George Stephenson made his when he mastered the rules of mathematics with a bit of chalk on the sides of the coal wagons in the mines. Make it, as Douglas made his when he learned to read from scraps of paper and posters. Make it, as Napoleon made his in a hundred important situations. Make it, as the deaf and blind Helen Keller is making hers. Make it, as every man must who would accomplish anything worth the effort. Golden opportunities are nothing to laziness, and the greatest advantage will make you ridiculous if you are not prepared for it.—The Arrow.
