

PUPILS' ITEMS

Ask Dora Gray who can bake beans good?

Apis Goudy is the Captain of the A. Co.

Meri Poland has left for his home at Coos Bay.

The girls are getting along finely in Domestic Science.

The sewing room girls are very busy making uniforms.

Nora Van Pelt is working in the domestic science this week.

A number of the girls' gray uniforms will be finished this week.

Tracy Johnson is a new member of the band. He plays the bass drum.

The A class of the eighth grade are learning how to keep their cash accounts.

Last Saturday morning Mrs. Adolph Farrow left for her home at Adams, Ore.

Chemawa boys are trying to see who can kick the football the highest this year.

Sam McCush is now in charge of the dairy and we expect to have some good butter.

Leon Reinken was in Salem last Saturday and bought himself a new pair of glasses.

The members of the band are practicing hard these days under Mr. Teabo's instruction.

We are all sorry to hear that Percy Johnson is very ill and hope he will be better soon.

Pedro Chevio is working in the baker shop. We hope he will be an expert baker this year.

Clarence Bardwell is getting to be quite a tailor.

Thomas Holden is working in the wagon shop again. He worked on the farm last spring.

Matilda John arrived here last Tuesday on the ten o'clock train. Her many friends are glad to see her back.

Mary Pablo has been working in the sewing room for about two months. She says she likes to make uniforms.

We are all glad to have so many new pupils enter our school this year, for it is going to be better than ever before.

Tom Mullings is getting to be a good football player. He said that he was going to show some of the first team boys how to play ball.

Caroline Ferris returned from Salem last Sunday evening after having three weeks visit with her uncle. She says she enjoyed her visit very much.

The new rules for foot-ball seem to be very well liked. We hope there will be fewer accidents than occurred while playing according to the old rule.

A boy who says "I don't know" every time you ask him a question, should be put into the kindergarten or in one of the lower grades until he learns something.

The sixth grade have been having very practical work in their classroom. Setting and clearing the table made an interesting study. We also learned how to cook and prepare beets and carrots.

Our Domestic Science classes are so arranged that the girls prepare their own breakfast. The girls are divided into sets and one set prepares breakfast and supper one day and the other dinner and supper the next.
