

ACHIEVEMENTS

On Saturday, Mr. Teabo accompanied by Nels Charles and Pedro Chevio went to Portland to see the Multnomah vs. Albany football game, and thus get an insight into the new rules.

The foot-ball game on the Chemawa gridiron on Saturday between the Hole-in-the wall team and the Giants was a one-sided affair; the Hole-in-the-wall having nine touch downs, while the Giants failed to cross the goal line during the game.

Under the management of Mr. Beck the basket ball team known as the "Yakimas" are rapidly rounding into form and as a team work well together. Last Saturday evening, they scalped the pick-up team by a score of 17 to 9. The line up of the Yakimas is Wilson, Williams, Yallup, Sooksoit and Darnell. Pick-up, McCully, Brothers, Holden, Jayme and Hudson.

While the small boy is busy with his marbles his large brother is busy with the pig skin. Chemawa will have a foot ball team altho we are light and for the most part inexperienced, nevertheless we will do our best. We note that all the players are bonifida students, not one hired player to defend our colors. Our games will be with teams more or equal or as the saying is 'we will tackle some one our size.' Among those reporting for practice are, Wilson, Watkins, Mack, Beach, P. Queachpalma, Brothers, Holden, H. Queachpalma, Benson, McCully, Booth and Charles.

News was received here of the marriage of Miss May Stanup and Ignace Peone which took place in Tacoma some time ago. Their old schoolmates and friends all join hands in offering their congratulations. They are now residing at Tekoa, Wash.

BREVITIES

New pupils are arriving daily.

Mrs. Chalcraft spent several days with friends in Portland.

Irene and Josie Peone have returned from their summer vacation and are looking well. Their friends were all glad to see them.

Mrs. Franklin P. Olney of Toppenish, Wash. arrived at the school last Saturday with her three boys, whom she desired to be enrolled as pupils.

Miss Miller gave us a cooking lesson in school the other day. She brought her little oil stove over, and cooked cream potatoes, which were cooked very nicely.

Mr. Westley is making war on gophers in front of the Hospital and McBride Hall. Those living in that vicinity heard a loud report on last Tuesday night.

The pupils of the Sacred Heart Academy accompanied by several of the Sisters visited Chemawa on Monday afternoon. Our little friend, Claudia Spink was with them.

On Tuesday Mr. Chalcraft with the assistance of the plumber and engineer boys set the radiators and turned the steam on in nearly the entire building of the middle-sized boys home. We have been waiting all summer for the necessary valves in order to install this steam, but the shipment having strayed somewhere between here and Chicago, only arrived a day or so ago. As we had frosty weather, Mr. Chalcraft decided to put in the steam, even though we had no head engineer or assistant.
