

PUPILS' ITEMS

The eight grade are studying soils.

Bessie Boles is now working for Mrs. Campbell.

We are glad to see our school grow bigger every year.

The girls enjoyed their time out walking last Sunday afternoon.

Miss Edith Inman plays very pretty pieces of music on the guitar.

Bessie Lahr is a good bread maker according to the way the bread tastes.

Anna Miller has returned again to the school after a pleasant vacation with her folks.

Eddie Lobert the new member of the band is doing well on his double f bass horn.

Grace and Rachel Carson arrived yesterday from their home in Toledo, Oregon.

Anita McLaughlin is cooking in the Domestic Science and proves herself a fine cook.

The gardeners are now hard at the potato digging and will be kept busy for some time.

The second football team has been reorganized of which James Minesinger is captain.

This is the season in which the boys get down on their hands and knees to play marbles.

Mike Smith and Joe Dillstrom are busy in the tailor shop making pants for the little boys.

The printers have to thank Silas Albert for a new shelf in the print-shop, on which they store their surplus paper.

Visitors to the printing office wonder why the printers have a pitch fork near their front door. It belongs to our "Devil."

New pupils are coming in every day. We will soon have all the tables in the dining hall filled up.

David Risling is now working in the blacksmith shop and Mr. Melson says that he is doing well.

Mrs. Shipton, the small girls' matron is liked by all her sewing room girls. She is very kind to us all.

Sunday afternoon's is the time the boys and girls take to enjoy a street-car ride and a dish of ice cream in town.

Mrs. Beck took ten girls for a walk Sunday afternoon. We went down to see Mr. Westley and we all had a good time.

Levi Sortor, one of our star football players, returned to Chemawa last night bringing with him his nephew, Johnny Darnell.

Mrs. Frank Rabbie, from Washington, state, brought her two boys, Elmer and David who have been admitted as pupils to the school.

Those that are not back in school must hurry and get back for the studies are much different this year and they are interesting lessons.

The piano and organ at McBride Hall are very much in use lately as the girls are getting new songs and each one quite anxious to try them.

Mr. Brewer and a force of boys are moving some wood so as to make room for the sidewalks which will run from the school to the street car line.

We are glad to see our Warm Spring boys learn how to play in the band. Teach them how so that they can play in the Warm Springs band when they get home.

Myrtle Berner says—I work for Mrs. Cox in the dining room and I enjoy my work. Last week I worked in the Domestic Science department of which, I can say I learned a great deal.
