

Continued from page 1.

The western states learned through the Lewis and Clark fair held last year, the advantages to be gained through generous participation in national exhibitions, and can be counted upon to make even better displays than those which helped make the 1905 show attractive. Oregon is certain to have a fine building, stuffed with products, and California, always a good show state, will be there. Idaho, Montana, Utah, Colorado and the other states, as well as the British possessions to the north, will be adequately represented.

With nearly three years remaining before the exposition, the beginning of preparation has already been made. The Washington University grounds, comprising 355 acres, bordering on Lake Washington and Lake Union, have been chosen as a site, and landscape gardening will soon be begun. The site is situated twenty minutes' ride from the center of the city, and is in every way adapted to its purpose.

James E. French, son of Mr. and Mrs Chas. French died at the home of his parents Monday evening, of brain fever aged 15 years, 4 months and 12 days. He had returned the previous Monday from Chemawa, Oregon, where he had been attending school for two years. Two of his brothers are there now. Jimmy, as he was called at home and by his friends, had not been feeling well for some time but he did not consider himself seriously ill and only complained of headache after his return home. He even protested against having any doctor called to see him. Dr. Capron was called Wednesday or Thursday, however, and made several subsequent visits, but from the first was unable to give the parents any encouragement. The funeral took place Wednesday afternoon, the interment being in the Catholic cemetery in the valley.—San Juan Islander.

ELSEWHERE IN THE SERVICE

A letter from Roland Nechoitewa of the class of '06 tells that he is an assistant engineer for the Arizona Pacific Copper company. He has in charge an air compressor, two pumps, an engine, and a dynamo, and is getting ninety dollars a month. He is at Camp Woolly, near Kelvin, Arizona.—Native American.

The six-foot cement sidewalk has been extended from the hospital to Central avenue and two connecting walks from the main sidewalk to the farm cottage and one to the farmer's cottage. A new walk also connects the hospital and farm cottage and another connects the school house with the teachers' quarters.—Native American.

We are glad to have our boys and girls back in school again. This is to be the banner year for most of them is the resolution to begin with, boys and girls.—The Reveille.

President Jordan, of Leland Stanford University says: Boys who smoke cigarettes are like wormy apples. They drop long before the harvest time because they do not have any after life. The boy who begins smoking before his fifteenth year never enters the life of the world. When others are taking hold of the world's work he is concerned with the sexton and undertaker.
