

INDUSTRIAL NOTES

Sam McCush is putting up a new forge in the blacksmith shop.—O. F.

George Scott is now working in the power house George is very good worker.

Lizzie Beaver is now working for Mrs. Campbell as Bessie Bole sprained her arm.

Mr. Mudge and a few of the carpenter boys have been repairing the roof of the commissary.

Mr. Hulden and his force of boys will soon complete the deer park back of the small girls' home.

Mr. Brewer has a force of boys grading the ground in the deer park, and is making it look nice.—F. L.

The laundry girls are preparing for some hard work as they have not had steam or power for three days.

Mr. Mann and the blacksmith boys have finished putting in the new tinger on the Middle Sized Boys' building.

Joaquin Meadows is learning very fast in the blacksmith shop. He is going to make a first class horse-shoer in the future.

Clarence Lewis, Leon Reinkin, Irene Peone and Martin Hartless were promoted to the seventh grades and are doing nicely.

Frank Sorahan is learning to make and temper rack drills Frank has his trade about learned and will soon start out as a journeyman. He worked last summer for T. W. Carsen at Toledo Ore. and Mr. Carsen has written to Frank asking him to come back and work for him again this summer.

Ben Wilson is now working on a set of light single buggy harness, it is his first in fancy harness and is doing well working on the floor now driving on the shoes.

Orin French is a good blacksmith he is one of the best repairers in the shop. The blacksmith boys enjoy their trade and expect to make a good living by it. —H.N.

Mack Colby is taking lessons in welding steel this is Macks third year in the shop. Mack did the blacksmithing last summer for the Willamette valley construction Co.

The blacksmith boys are putting in new iron forges. Frank Sorahan has his forge completed; Sam McCush has his almost completed; Albert Garry and Orin French will have theirs finished a day or two.

The boys in the blacksmith shop made 250 bolts, to be used on the deer park fence, and drilled 350 holes in the 3 inch pipe to be used as posts for the fence made 62 straps of iron 10 inches long with $\frac{3}{8}$ inches hole in each. John Peazzoni & Joaquin Meadows are making smoke stacks for the forge in the blacksmith shop.
