JOSEPH DILLSTROM

Some people have more patience than sense.

Some people have more patients than cents.

Working or Puttering. Which are you doing? You may be in your place with tools in hand, whether it is pen, needle, hammer, ax or dish cloth but are you accomplishing anything? Can you see the work you are turning out? Or is it only time you are killing with your tool? Time is a part of your life, if you are killing that, then you are doing yourself an injury.

The kitchen boys, the engineers and plumbers had a party in the auditorium Thursday evening of last week, and all of those who were fortunate enough to be present report a good time. The balance of the large boys and girls spent the evening at the sociable held in the gymnasium.

Last week's edition of the "American" should have been Vol. IX, no. 52 instead of Vol. X No. 2.

INDUSTRIAL NOTES

Details changed this month.

Louise Murray is sewing for Miss Irene Campbell.

Mr. Westley and his boys are spraying the fruit trees.—A.G.

The farm boys will soon get through working on the lower farm.—A.B.

Mr. Bewley is going to give the boys of the shop lessons on valve setting on engines.—R. A.

Tracey Johnson and Silas Albert are making a book case which they will put in their room.—B.L.

The engineers have cleaned and painted the small engine which come from the old laundry and have it now ready to put together and run.—J. L.

Commencement at Tuskgee.

The Commencement exercises and the annual exercises of the Industrial departments will be held on the same day this year. Heretofore the Industrial exercises have been held in April apart from the regular Commencement. The change afforded a large number of people opportunity to witness the Industrial exercises and at the same time make the closing exercises of the school more varied and perhaps more interesting than has been true in the past. This arrangement will materially change the whole program for Commencement day. Instead of having one long session as heretofore, there will be two sessions, one in the morning and one in the afternoon. At each session an industrial paper will alternate with an academic paper.—The student.

This is exactly what we did last year.
