After a patient wait of over two months for the older pupils to leave them an open date, the girls' literary society known as the Estelle Reels had their party in the auditorium Thursday evening of last week. George Washoe's orchestra furnished the music. There were seventy guests invited, but when the time came for counting noses, there were 100 present. There must have been some late invitations issued, but there was plenty of refreshments and those present had all they could eat and some to carry, this part of the party the little folks seemed to enjoy the most.

Where Indians Rule

The great republic of Mexico is not a Spanish but an Indian country. The best blood and brains and civilization, the government, the wealth, the intelligence, are chiefly Indian, not Spanish. The proportion of Spanish blood in the whole country is almost insignificant.
