

INDUSTRIAL NOTES

William Burke is working on a set of back bands.

Have you noticed the hurdles made by the carpenters?

Maxime Barnaby is working on a fancy buggy bridle.

John Boise starting on some have tugs for back harness.

The gardeners have planted 35 acres of potatoes for winter use.

Grover Colby is getting pretty well experienced in stair building.

Martin Sampson made a tongue for the farmers heavy wagon last Tuesday.

Johnny Sulkey made a pump for the purpose of watering dairy stock from Lake LaBish.

Joseph L'Heureux one of our harness-worker left for his home in Washington Saturday.

Grover Colby made a door for the engine room which would give any finished mechanic credit.

Mr Woods says that John Sulkey is one of his best carpenter while Grover Colby is the best.

Martin Sampson turned some molding for Mr Chalcraft's Cottage which is not to be ashamed of.

Joseph L'Heureux has been missed very much by the harness makers he left for his home in Washington.

The tailors are busy making uniforms for the band boys. They are making about twenty four band suits.—F.I.

The painting of the gymnasium is being done by the painter boys who are making a very good looking building of it.

We are all glad to see Laura Wilson become a good Nurse. She now wears a uniform worn by all trained Nurses.—E.N.

The frames for the wire screens for the root house are all finished and waiting only for wire staples to complete them.

The gardeners sent in 72 gallons of strawberries to the dining hall last Monday which were greatly enjoyed by the pupils.

Grover Colby and Eddie Curl made and fixed the stile steps at Old Chemawa for the convenience of picnickers from Salem.

Mr Mudge and the carpenters are renovating the old building back of the old printing office which will make a neat appearing cottage.
