

## INDUSTRIAL NOTES

Frank Cox is working in the tailor shop.

Marion Curl has entered the tailoring department.

Jennie Luke is now working in the dining room.

Katie Brewer is learning to draft patterns in the sewing room.

Martin Sampson is now working in the engineer department.

The engineers finished the ditch which kept them busy for some time.

A few of the tailor boys are busy making white coats for the kitchen boys.

James Minesinger fixed the lights at the power house which were burned out.

All the snops are full of busy interested boys hard at work, learning useful trades.

Emma Shepard is making Christine Boswell a very pretty dress for Thanksgiving.

The electric motor for the printing office has been received and will be installed in the near future.

A new up to date Boston Stapler has been added to the printing office and the printer boys are accordingly happy.

We had pleasure this week of eating some very delicious bread made by Mary Campbell in the Domestic Department under Mrs. Cooper's direction. Mary is only 14 years old. We are told that the older girls had better look out for their laurels as a great many of the younger girls of this school are among our best bread makers.

## LOCALS

The hospital looked very neat and well cared for on Sunday.

Miss Gertrude Brewer has been quite ill but is able to be out again.

Mr. Campbell was in Portland on Tuesday on business for the school.

Mr. Frank Trimbrook who was visiting Mr. Mann, his cousin, left here Monday.

Hon. Edward Hirsch, wife and daughter Miss Ella were school visitors on Sunday.

Our kitchen boys will look very modern and very neat in their new white coats.

The members of the Nonpareil society have decided to keep their former colors "Gold and White."

Mr. Gouge was out on Sunday. He has almost recovered from a severe attack of sciatic rheumatism.

The Bible class of the Y. M. C. A. and Y. W. C. A., under the direction of Mr. Gouge, was very well attended on Sunday afternoon.

We were all glad to see the band out on the bandstand on Sunday afternoon; and the short but pleasing program was enjoyed by both the boys and girls.

We wonder why the orderlies were playing marbles in the down-pouring rain. They seemed perfect oblivious to the fact of it raining when called into the office by Mr. Campbell.

The AMERICAN has received a subscription from Mrs. F. A. Richter of Greenwood, S. Dakota, who states that both she and Mr. Richter are employed and in the best of health. Mr. Richter was once assistant engineer at Chemawa, and their friends here are glad to hear of them.
