Some one has said "it doesn't take long to work five minutes, but sometimes it takes a long time to do five minutes' work." The boys and girls of this school would do well to ponder the meaning of the above.

When a young boy begins smoking cigarettes he begins missing his lessons, failing in studies in which he used to lead his class. Can you afford it, boys?

Mr Goudge told the boys and girls on Sunday evening, that they were, "the privileged few of this country" meaning that their opportunities for education were greater and better than the average white child, and illustrated it by showing how he himself had to make his way educationally.

We have a letter from Rosa Winslow in which she says that it is not her intention to return to Chemawa but that she has nothing against Chemawa and will always be true and loyal to the school. Rosa's many friends will regret that she does not return as she is in this year's graduating class.

Boys are your feet dry? Girls are your feet dry? Boys do you wear vests? Do you keep out of the rain? Do you take care of yourself or do you expect to go through life having somebody to care for you always? If you do not care for yourself and your health why do you not? Each one of this school ask yourself this question.

Mr. Campbell while in Portland on Tuesday purchased 450 pounds of dressed turkey for the pupils' Thanksgiving dinner. This when prepared with dressing and giblet gravy together with cranberry sauce, mashed potatoes, sweet potatoes, creamed turnips, cabbage salad, pickled beets bread and dairy butter, coffee, mince pies, pumpkin pies, and canned pears will constitute the children's Thanksgiving dinner.

Industrial Notes

Harry Joe did beautiful work making buttonholes on Miss Jones' new suit.

The last week has been repair week in most of the industrial departments of the school.

The sewing room detail are busy making new table cloths which will deck the tables for Thanksgiving dinner.

Mack Colby is quite far advanced in his blacksmith trade and we were glad to see him return to Chemawa in order to complete his trade.

And still Mr. Westley and his garden boys are busy gathering Chemawa's large crop of potatoes which seems to be a bumper crop, unexcelled in the history of the school. Mr. Westley also has a part of his force spraying the orchard to comply with the Oregon State Law, which requires the same to be done. This will help some in giving us fine luscious fruit next year.
