

GENERAL NEWS

Sarah Matthews works in the Dinning Hall.

We all enjoyed the basketball game Saturday afternoon.

Ethel Logan has entered the fifth grade and is doing nicely.

We are all glad to see so many new pupils coming to our school.

James Joe is working at gardening. He is one of Mr. Westley's best workers.

Annie Souvigner is working in the laundry and she does her work neatly.

Sarah Brewer stood highest in the eighth grade last month. Her average was 96.

Miss Troutman bought a little wagon for Alvin Shepark and he was very glad to get it.

We are all glad to see Lizzie Dahl out and around, since she was in the Hospital so long.

Mrs. Chalcraft has new copy books for the third grade and they think very much of them.

Edward Williams is doing some good work plowing the potatoes. He understands his business.

We are all very glad Christmas will soon be here and hope all the girls and boys will have a good time.

Nettie Carrasco works in the Domestic Science room every Monday and cuts her breakfast and dinner there.

We, of the third grade, were delighted with the visit Mr. Johnson paid us last week. Seldom do visitors make themselves interesting to pupils during class exercises as did Mr. Johnson.

Laura Harnden stood highest in the seventh grade last month. Her average was 95.

The dining hall looked beautiful Thursday. It was decorated with crepe paper and a large flag, and the turkeys made the tables look good also.

Mr. Johnson, who visited Chemawa on Friday was very much pleased with the small children in the first grade. Big boys and girls, do you know that they speak out more distinctly than you do?

Mr. Johnson gave the eighth grade a very nice talk Friday afternoon while visiting the school room. He said he had taught school for thirty years and visited many hundred schools, but never had he been so well pleased as with his visit to us. We hope that Mr. Johnson will visit Chemawa again and see still further improvements.

The Bunker Hill Athletic club's football squad was put through a stiff practice Sunday by Coach Kennedy and the men are feeling so confident of their ability to defeat most anything left in the shape of a football team that they are anxious to take on the St. Johns aggregation Sunday. The Bunker Hill squad reports fine treatment from the Chemawa Indians and the members say the aboriginies are coming on beautifully under the coaching of Kirby.

WANTED

**For Chemawa School sixty
Turkeys weighing about 12
lbs. each for delivery be-
fore Christmas Apply to
Edwin L. Chalcraft
Supt.
