

INDUSTRIAL NOTES

TAILOR SHOP NOTES

We are pleased to report the passing of the underwear and that we have taken up the work of making school uniforms. The boys are pleased with the change and we look for a rapid development along these lines

1. If a man's waist measure is 34 inches what will his hip and thigh measure be?

2. If the perfect size of breast is 36 inches what is the perfect waist size for a male figure?

3. If the outside length of a pair of trousers is 42 inches for a normal figure what should the inside length of leg be?

4. Ans. Ask any boy in the cutting class. He knows.

Mr. Farrow and his force of boys are cleaning up behind the industrial building.

A COOKING DEMONSTRATION

On Friday morning Belle Dillstrom gave a cooking demonstration which was very interesting to the Senior Class. She made some baking powder biscuits. The recipe was:

4 cups of flour, 1 tablespoonful of salt, 4 teaspoonful of baking powder, 4 tablespoonful of lard and 1½ cups of milk.

First she measured out the flour, then the salt, baking powder, lard, then the milk. After mixing it well she put the dough on a board and kneaded it down to a thickness of one-half of an inch.

She then took a biscuit cutter and cut the dough into smaller pieces and laid them in the pan.

The dough was then ready to be baked.

The dough was then taken to the oven and baked for about 10 or 15 minutes, then the biscuits were done.

Left-Over Items

Alice McPherson is working in the sewing room.

We are all glad that we are in the Chemawa school.

We all enjoyed the phonograph in chapel last Monday night.

Mr. Swartz is now back on the farm after his vacation of one month.

Clara Reid is Miss Troutman's best floor girl in the Small Girls' Home.

Julia and Laura Cochran were very glad to get some nice tablets from home.

William Campbell was making taffy Monday night. Treat the boys, William.

Matilda John and Maggie Jerry are making sheets for the Small Girls' Home this week.

We all enjoyed the music Monday night in chapel, and we thank Tracey Hatch for it.

The office is Charles Dick's home. He is over at the office before the whistle blows in the morning.

Joe Bedell and Mike Campbell are working in the blacksmith shop. They like their work very well.

All of the afternoon office boys say they like to work at the office. Elmer Rabbie says that they have lots of fun.

You boys and girls think it is cold here this winter. What would you do if you were in Washington where water freezes inside of the house?

The blacksmith boys are bolting the track together which will soon be in use back of the engine room. The track can be taken apart in sections.
