Fourth Grade

Chemawa, Or., Mar. 24, 1908

Dear Friend:

I will tell you of a delightful walk

yesterday after school. Our teacher took us to gather pine needles in the woods back of the new hospital. It was a lovely day, the sun was shining brightly, the birds were singing, and now and then a snake was seen crawling away. We went along the road until we came to a fence with a stile built over it. We all climbed over the stile and went into the adjacent woods.

The girls, rejoicing over their freedom, ran about—some climbing trees and stumps and others looking for flowers. A few wood lilies were found and there were plenty of spring beauties. Then we stripped pine needles for our teacher, as she wanted them for a cushion.

When the whistle blew we all went to the road and had a delightful walk home. The sun was setting and everything was fresh and green.

We all hope our teacher will take us for another walk soon.

Your friend,

Viola Brown.

ELITE

The Elite Society met Thursday evening, there being twenty-seven members present and twelve absent. The following program was well rendered: Song, Lona John; Recitation, Maggie Johnson; Song, Ruth Brewer; Rhymes, Christine Boswell; Pen Picture, Caroline Joseph. The question for discussion was, Be it resolved that an Industrial education is of more benefit than a School education.

For the Affirmative, Erma Pollock and Ruth Brewer, and for the Negative, Louisa Roberts and Marie Bailey. The subject was well discussed, the Affirmative winning.
