The rumor that Superintendent Hall contemplates leaving Sherman in the near future seems to be well circulated through the service. He wishes to state that as far as he is concerned no such move is considered.—*Sherman Bulletin*.

Haskell Institute is making arrangements to celebrate their quarter-centennial during commencement week June 1-17, 1909, which will include a reunion of former employes and pupils, and a demonstration of what the school has done in advancement of the Indian.—*Weekly Review*.

When students come to the point of reaching out and taking upon themselves extra work for the sake of advancement they show the genuine progressive spirit. In various lines our young people are taking the initiative, a fact which gives more encouragement than most anything else they could do. Push on for yourselves, boys and girls. It is the only way in which you can ever gain real power and independence.—*Sherman Bulletin*.

The cooking-class gave an exhibit on the afternoon of April 9, that was exceedingly tempting. Loaves of wholesome light bread, rolls, dainty salads, cheese straws, delicious fruit salads, pies, delicious cream puffs, brown sugary doughnuts, loaf cake, jelly roll, crisp cookies, nut cakes, and other good things "too numerous to mention," were shown. Upon each plate of samples was the name of the girl who had prepared them. Miss Keck's girls certainly learn to cook delicious dishes and to do many other useful things.—*Indian Leader*.

Guy Cooley, of the Arapaho tribe, who has been at Carlisle for five years and was a member of the present senior class, has received an appointment as messen-

ger in the Office of Indian Affairs at Washington. Guy has been an officer in the cadet organization of Small Boys' quarters, and was deservedly popular at the school. He has been ambitious to fit himself for clerical work and his present employment will doubtless be a stepping stone to something higher.

Guy will enter one of the business colleges in Washington and spend his evenings attaining a thorough business education. The best wishes of a host of friends go with him.—*The Arrow*.

We hear encouraging reports of the instruction in lace work among the Indian women of the Walker River Reservation, mention of which was made last month when it had just begun. The women and girls seem to take a good interest in the work and if it is made profitable to them there is good reason to be encouraged to hope that it may occupy time that otherwise would be devoted to gambling.—*The New Indian*.

The American takes off its hat to the Review; the "office devil" humbly gets down on his knees, after putting on his eye-glasses and rereading our issue of May 8, and begs the pardon of the Review for crediting in its "elsewhere column" several of its articles to the Native American. But then it should not feel badly because many good "clippable" articles appear in the Native American as well as in its own columns.—*Ed.*

The gardeners have been quite busy the past few days planting sweet corn, cabbages, tomatoes, and the third crop of stringbeans at Sherman proper. The vegetable gardens look fine, indeed, much to the credit of Mr. Scholder, who is in charge of the same.—*Sherman Bulletin*.
