### THE FINAL TEST.

In this issue of the AMERICAN we publish a portion of the averages of pupils as the result of the final examinations; in our next issue the list will be completed. In the main the pupils made very creditable averages, but they should not rest content with merely passing or doing well, they should be determined to do better in every future examination.

As Assistant Superintendent Campbell pointed out in chapel a few evenings ago, some of the pupils did not make as good averages as they are capable of doing for the reason that they were out of school for sickness or some other excusable reason. There were others who came to Chemawa recently and who previous to their arrival here had enjoyed no educational opportunities. For this class of students there is some excuse, but for those who did not take the advantage of every opportunity afforded them there is no excuse whatever.

## Academic

The Seniors are now studying elocution.

Mrs. Royer's flower beds around the Academic building are the best cared for.

Jasper Grant brought some lovely California poppies to the Junior and Senior classes.

"Oh Nicholas Hopkins"

If you want an explanation of this ask the Seniors.

The Senior class were taken to visit the gymnasium on Monday morning and were delighted with the building.

Nearly every school room is adorned with beautiful plants and cut flowers and the pupils enjoy them very much.

What became of the seeds planted by the juniors in their flower bed? Are the poor little things drowned, or only asleep?

Do you notice how Johnnie Matthew's shoes shine? He is Mrs. Campbell's orderly and keeps himself looking very nice and neat.

Miss Earlougher is giving special attention to some of the 3rd grade pupils who failed in arithmetic and hopes to have them ready for the fourth grade when school opens in the Autumn.

The teachers for the 6th Normal for the first two weeks of June are Louise Murray, Arithmetic; Alfred Lane, Physiology and Geography; Webster Hudson, Reading and Spelling; Tilly Souvigner, Grammar and History.

The Fifth and Sixth Normal classes deserve great credit for the work they have done under the supervision of teachers from the Junior and Senior grades. The teachers provides for these normal classes and they have done well and handled their pupils splendidly.
