

Letters have been received from Jack and Sam and Mary McCush announcing their safe arrival home. All expect to return and finish their course, after a pleasant visit home.

Chemawa's potato crop is assured again this year. Sweet corn is now one of the delicacies and will be until November.

The fruit crop this fall will be unprecedented. Any boy or girl who does not get enough apples, pears or prunes this year at Chemawa certainly will be a wonder.

#### Left-Over Items

Bessie Boles went back to Forest Grove to resume her work.

The engineer boys repaired the washers in the laundry this week.

Edward Stensgar left for his home in Washington Tuesday afternoon.

Dorothy Tallot works in the sewing room and is a very nice little worker.

Martha LaClair is making a very pretty blue silk waist for Miss Brown.

Albert Scott is in charge of the garden and orchard and is attentive to his duty.

Some of the sewing room girls are learning how to embroider collars and belts.

Mattie Hayden has been transferred from the sewing room to nursing in the hospital.

Edward Ainsworth left for Albany Tuesday evening to work for a man at plumbing.

John Upham, Lawrence Pablo and Charley Minesinger left for their homes in Montana Tuesday morning.

#### Y. M. C. A. Visit Klamath Agency

(Continued from page 1.)

#### WALKED 200 MILES.

"We returned to Ashland by the Dead Indian trail, walking in all about 200 miles. On this trail there is a good farmers' line and when we reached the Spencer farm, about 20 miles from Ashland, we were invited in to accept of their hospitality as they had heard of us. There, too, we were taken out in automobiles. From Ashland we took the train home, being gone 16 days. "There is no question about it," said Mr. Grilley, "that the Klamath Falls Club knows how to entertain. Their hospitality I have never seen excelled. We all feel that our trip was not only a vacation, but a schooling. We learned so much that we had never dreamed of concerning Oregon's grandeur and productiveness.

"What we learned of Oregon's resources has been of real educational value to us. We are already planning our trip for next year, which will be either Mt. Jefferson or to caves in Southern Oregon, in Josephine county. They are said to be very beautiful and Joaquin Miller has christened them the "Marble Palace."

In the party were A. M. Grilly, W. J. Blumenschein, Charles H. Marias, William W. Belcher, J. B. Arbuthnot, A. Pfander, E. B. Harley, H. Johnson, Geo. Sibben and F. W. Nelson.

#### PUT BAN ON CIGARETTES.

LITTLE ROCK. Aug. 26.—Superintendent Eesly, of Rock Island railroad, has issued a bulletin notifying the employes that cigarette smoking will not be permitted; violators will be discharged.
