

MONTHLY ENTERTAINMENT

The teachers and pupils of our school have undertaken to provide us with an entertainment once a month during the present school year. Friday evening we had the pleasure of being present at the first program rendered. The 10,000 landless Indians of California are in 350 bands, some of which are few in numbers, and these are so scattered that there is great difficulty in providing schools and missions for them. Only by admitting them to the white schools wherever these are, and by including them in the Christian teaching of the churches nearest them, can they be instructed and evangelized. Ten consecrated field matrons are doing noble work at different points, but more are needed for places remote from any church work.—Indian's Friend.
