

PUPILS' ITEMS

Alice Chalcraft made some very nice candy Tuesday morning.—H. H.

The girls who are taking nurse training are now having the study of anatomy.—L. H.

The first-class cooks in the domestic science are improving in their cooking.—E. G.

The pupils enjoyed the short but excellent band concert last Sunday afternoon.—C. D.

I am working in Domestic Science with two girls and we had meat today for dinner. It is nice to work there.—M. S.

Some of the boys and girls had a very pleasant trip to Forest Grove with the football team last Friday. They had a fine time while over there.—A.

Mrs. Brewer is a good cook and is working very hard for Thanksgiving, and we know we will have a good time in the dining hall at that time.—C. G.

The boys who came into the blacksmith shop lately are learning very rapidly. Keep it up boys, every little added to what you know is to your own credit.—J. F.M.

We are all sorry to see Dollie Case in the hospital with a sprained ankle. The double bass was missed very much last night, by the members of the Orchestra.—M. L.

OUR NEW GYMNASIUM.

The cut of the old barn which has been remodeled into a gymnasium is given in this issue. It has been entirely rebuilt and has been moved to a new location, south of the industrial shops. It has been remodeled both inside and out, so that it is a handsome structure, and has one of the best floors in the Northwest.

The building is one hundred by sixty feet; has an eight end running track

suspended from the roof equipped with a platform in one end. Has both a dressing room and bath in the basement.

It is steam heated and has a very complete system of electric lighting. The basketball floor has been laid out according to regulations seventy by fifty feet. Here will be enjoyed some of the best basketball contests of the Northwest.

LOCALS

Capt. Eli gave a very interesting lecture in chapel Tuesday evening.

The Y. M. C. A. had a very interesting meeting last Wednesday evening.

The Mandolin Club is going to give a public concert in the near future.

Michel Wilson entertained a number of girls and boys with his phonograph last Sunday afternoon at McBride Hall.

Word has been received from Lillie Stensgar that she and her brothers will soon return to Chemawa.

The cars on the electric line from Portland to Salem have changed time. There are more cars on now, making 16 trips, 8 each way.

Mabel and Cora Picard's mother came from St. Paul to visit them. She stayed all night and was much pleased with the school.

Harry Queachpalma and Walter Miller, returned students, are playing baritone in the band, and Cyril Morrisette is playing the slide trombone.

Edward Stensgar returned to Chemawa this week bringing with him his sister, Alice. Edward has been trying to come back to Chemawa and bring his sister since the first of October, but his Agency was out of transportation funds, and he remained on the waiting list. Finally getting tired of waiting, he paid his sister's fare to the school in order not to lose any more time.
